### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 14 October 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

Art Unit: 1711

Applicant's arguments filed 10-14-05 have been fully considered but they are not persuasive.

The following rejections are set forth or maintained herein:

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 28-61 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There are inaccuracies in applicants' written description which render determination of applicants' invention, as claimed, unclear. There is no written description of binder materials having onset temperatures for melt processing as defined by applicants' claims described in applicants' supporting disclosure. Applicants' only written description of specific materials for use in their invention are identified as polymeric (note pages 10-12 and example 11 of applicants' supporting disclosure). However, polyisocyanates and/or prepolymers thereof are not polymers, and these inaccuracies render applicants' claimed invention unclear.

Applicants' amendments and reply have been considered, but rejection is maintained for the reasons set forth above. The amendments do not serve to address

Art Unit: 1711

this rejection, nor does applicants' reference to pages 10-12 of their supporting disclosure. Applicants' do not address or correct the inaccuracies of their supporting disclosure, and, accordingly, rejection is maintained.

Claims 28-61 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for binder materials disclosed at page 12 lines 3-5 and example 11, does not reasonably provide enablement for materials which are not the materials set forth at page 12 lines 3-5 and Example 11. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims. Applicants' supporting disclosure at page 12 lines 3-5 provides enabling disclosure for the binders described by applicants' invention and presents a specific example of these materials in example 11, but does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use other materials beyond these defined materials without requiring undue experimentation. *In re Wands*, 858 F.2d 731, 737, 8 USPQ2d 1400, 1404.

The inaccuracies addressed in the written description rejection set forth above apply to this rejection, as well, in that the experimentation required to practice applicants' invention as is currently claimed is even further complicated.

Art Unit: 1711

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Cooney whose telephone number is 571-272-1070. The examiner can normally be reached on M-F from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck, can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
